City of Akron employee who saw \$30,481 in student loans forgiven

"Summer's PSLF tool was super easy to use. I quickly set up an account using the link provided from HR. It walked me through each step, clearly explaining everything along the way. The submittals are all electronic so there is nothing to print, email, have signed, send back, etc. Summer does it all for you with the information you provide. Once the application is complete, you can even track your progress. SO EASY. A couple months later, I received a letter stating that the remainder of my loans were forgiven. I am thrilled!"

Summer

Frequently asked questions

To best prepare you alongside our launch, here are select common questions you may receive internally or from borrowers about Summer and our partnership.

Your team can forward all questions to hello@meetsummer.org.

What will borrowers need to get started on Summer?

All they will need is their FSA ID which was created when they first took out any federal loans and a proof of income.

What amount of savings will our borrowers reach?

On average, Summer saves borrowers over \$30,000 on their total loan. At the kickoff of our partnership we can determine appropriate benchmarks based on the unique qualifiers of the borrower base.

What if a member of their family has loans?

If any borrower has a spouse with loans, or a parent with Parent PLUS loans, Summer can help them.

How do members know their data is secure?

Data security is a vital to the Summer user experience, and the privacy of our users is top priority. All data is encrypted at rest as well as in transit. We maintain two-factor authentication on all secure data system accounts and all data channels are SSL/TLS encrypted.
